THE CRITICS SAY
IT IS HIS LAST AND BEST.

## LORD MONTAGU'S PAGE

H. T. TUCKERMAN, ESQ., says:

"What is best in the inexhaustible vein of James is preserved, and what is least effective in his style is repudisted in "Lord Montagos Fage." Whiten by one unknown to fame, it wand be haired as of the promise; and the exquisite manner in which Mesers. Childs & Peterson have issued it seems to forecell the new vigor and grace bestowed by its prolific surface population of the same translable for the correct minutes of instorical detail, as for artistic sequence of heident and kindly tone of feeling. In the great lack of entertaining booss that signalizes the present season, numerous readers with small most nearthy and off friend, for thus coming bavely to the rescue and giving them something to begule and cheer, which make and enliver the inegolis hours of the Sammer solution."

"The Lord Montago, whose page is the hero of this capital lead, is the ascordate and indinate triend of the famous Duke of fire kingpam though the former does not figure at any great length, and the latter is not introduced at all. Edward Langdale, the page, or Master Ned, as he is generally termed, carves his even way to distinction in service that is mostly rendered spart. He is intrusted with dispetcher to Rochelie, just at the common measure of the memorable sleps by Ritchelieu and Louis XIII., and chance throws him into frequent intercourse with the great Lenines. Without deviating, in fact, from his duty to his match, he country, or all striplen, he becomes a protect of Richelieu and the historinal interest of the tale mainly turns upon Mr. James's new and mid der view of Richelieu and the nave and mo

of his own earlier rove's, which bore the Cardina's name, and herein, without faisifying the truth, makes an amende by no means unacceptable. The new potrasiture, though in lighter colous han of yore, is sketched with a mater's hand, as are also the mere outlines of several real personages of the time, such as the Prince & Soublee, the Dar de Roban the Duchess de Chevause, and Guiten, the valiant defender of Roche le. The love perion is pretty, and full of unexpected turns; the wind-up is very gracult. The recently is for the most part French, and shows Mr. James's familiarity with that land. On the whole, 'lord Montagu's Fage' ought to be some at once a favorite, and we advise our realens to make his acquaintance forthwith. It is poblisted, fin an unusually neat form, by Measra, Childs & Peterson of Philadelphia."
